AT A GLANCE	
	• What is SPECTRUM-COHESION project about? • Transnational Project meeting in Finland • Next Steps

About the Project

The project **SPECTRUM-COHESION: Inclusion of Students with Trauma and Neurological Disorders into Employment for Social Cohesion of Refugees and Host Communities** is a three-year Erasmus+ initiative uniting Poland, Cyprus, Finland, Italy, and Spain.

Objectives

Its primary goal is to enhance the **COHESION** of students with neurological disorders and trauma within the workforce. This will be achieved by:

- Raising awareness among work-based organizations about these issues through specialized training.
- Supporting vulnerable students throughout their journey toward employment.

Expected Impact

The anticipated outcome of the project is a systemic shift that ensures the involvement of workers with neurological disorders is not left to the spontaneous efforts of a few progressive businesses.

Instead, it will become a practice actively encouraged by training initiatives designed to:

- Help identify opportunities and benefits.
- Simplify issue management.

Vulnerable students require more than just any job; they need the right job tailored to their needs.

Third Transnational project meeting in Finland

The third Transnational Project Meeting (TPM) for the Erasmus+ initiative COHESION: Inclusion of Students with Trauma and Neurological Disorders into Employment for the Social Cohesion of Refugees and Host Communities took place on August 28th and 29th, 2025, in Vaasa, Finland, hosted by VAMK.

- A representative from MANS presented the materials prepared for the COHESION Training Program Package tailored for the private sector. They offered recommendations to enhance the developed chapters and the upcoming crash courses.
- Additionally, a representative from LUISS shared materials concerning the COHESION Training Program Package aimed at students with neurological disorders, also providing suggestions for improving the existing chapters.

Following these presentations, discussions ensued regarding the content of the crash courses and our dissemination activities.

Transnational project meeting in Finland

What's Next

WP3 - COHESION ON-LINE TRAINING PACKAGE FOR PRIVATE SECTOR

A2: Training content package for the private sector. All partners will develop the crash courses assigned to them by the Work Package Leader for WP3.

A3: Cross-checking of the training material by the consortium. After the training material has been developed, the consortium will cross-check it.

WP4 - COHESION TRAINING PACKAGE FOR STUDENTS WITH NEUROLOGICAL DISORDERS

A2: Training content package for vulnerable students. All partners will develop the crash courses assigned to them for WP4.

A3: Cross-checking of the training material by the consortium. After the training material has been developed, the consortium will cross-check it.
